Website Building: Basic Layout
HTML - Lists

The following exercise contains the following subjects:
- Lists

Instructions

Create 2 lists.

The first one should have:
- a bold italic and underlined title, and the text should be blue.
- The second one will have numbers instead of bullets and the text should be red.

we haven't learned about colors or underlining yet,
So use Google to accomplish this.

Your lists should look like this:

<u>*First list*</u>
- chocolate
- milk
- sugar

Second list

1. chocolate
2. mlk
3. sugar

Now create a third list that has a square instead of bullets or numbers.
